In addition to that, you can create fully featured todo lists, appointments, emails, contacts, passwords and notes. It has a neat and professional looking design with a classic simple layout that lets you create all your favorite features in no time. Creating a to-do list is simple, with just one click of your mouse. It's possible to choose the duration and duration of each task, as well as add some notes. Once the task is saved, you are able to edit or update it at any time. It's also possible to assign tags, categories and add a priority. Creating an appointment is fairly easy as well. You can specify the location, start and end time, duration, plus any notes and reminders 09e8f5149f

EssentialPIM Crack With Key

From the makers of MailToaster and MailMerge, EssentialPIM is a feature-rich notetaking utility that enables you to keep all important information into a single and secure place on the computer, whether we're talking about todo lists, notes, contacts, emails, passwords, or anything else. Plus, it's free to use. Setting up this tool is a fast and simple task that doesn't need special input. Once finished, you are welcomed by a professional-looking interface with a neatly organized structure, where there are several samples displayed to give you a better idea of how the application works. Create appointments, todo lists, and notes For each new entry you can fill in as many details as possible. For example, when it comes to appointments, you can specify the location, start and end time, duration, whether it's exclusive or not, priority, completion status, category, notes, reminders, and repeat mode. Most of these attributes apply to todo lists too. As far as notes are concerned, EssentialPIM puts standard text formatting options at your disposal, allowing you to insert pictures, hyperlinks, tables, symbols and horizontal lines, among others. Manage contacts and passwords, export and synchronize data It's possible to build and manage an address book for contacts by indicating personal and business information as well as by attaching any pictures or notes. Furthermore, you can write passwords to wireless network connections, email accounts, Windows logon or anything else, and preserve them in a safe place. As previously mentioned, the software tool lets you password-protect the database to restrict other users' access. Furthermore, it lets you consult a color-coded calendar to easily track down notes and events, synchronize data with Microsoft Outlook to swiftly view emails and send new messages, export information to various profiles (e.g. HTML, iCal, TXT, DOCX, RTF) or synchronize it with Android, iPhone or iPad, and so on. Overall, a resourceful and intuitive organizer The program worked smoothly in our tests, without triggering the OS to hang, crash or pop up error messages. It had a good response time and minimal impact on system performance, using low CPU and RAM. Taking into account its wide range of options and configuration settings that are also simple to comprehend, EssentialPIM should meet the requirements of most users looking for a free and versatile personal organizer. For additional features, you can check out the professional edition of
