What's new in Draconic Route:

This is a longerer of the Dragon Companion Route. For starters, this is a Lawful path.. Plus it has inspired some replies... Comment Over all, the major differences between my faith and Esoterics are: - Esoterics accept several gods (and disagree about which one is the true one, like diety controversy); - I believe that there are just two major alignments- Law and Chaos; - Esoterics have «OMNIPOTENCE» as their main skill, while we have «GUILT»; - We have heaven, hell and Purgatory (esoterics don't); - We have gifts. Commonalities: - Esoterics believe in reincarnation; - Esoterics believe in free will; - Esoterics believe that «the 5 senses» can guarantee our «RIGHT»; - Esoterics believe in resurrection; - Esoterics believe that the Law of Karma is functional; - Esoterics believe in «Karma» and «Sin» and believe they have the power to nullify those concepts; - Esoterics believe that if you perform bad actions, you are «punished» in the afterlife for it; - Esoterics believe in Angada, the person who «guarantee» the true god. As for information, the Priest should have +1k to everything holy (we don't choose the path, we encounter it..)He should also have a +1 knowledge on the «bandits» (these would be the artifacts from the Erebus Decoded, that esoterics can use).To play MoRo, he has to have the backstab skill (and have that weapon: Rock. He doesn't need that ice, like for Esoteric), then he should have abilitys to apply unarmed/bows/crossbows, one amongst that could be wood. For the liquor skill, he should be able to use wooden and metal (but not copper :X), then he'll have low armor abilities, and he could have that weapon :evil: I don't know how much I should add to my previous post, the Esoteric just is composed of a few things, the 6 «p.ari.» (higher ones that are german) and of some information about the Supreme one. For example, we have to leave off the «demons» and «Huang
