The most historically accurate naval sim to date!

World of Warships at its finest players can immerse themselves in a vast World War II experience in an unique, historical depiction of naval combat. Featuring more than 400 historically accurate and well-designed ships, World of Warships gives players opportunities to visit every corner of the globe in boats ranging from submarine subs to car carriers. From mighty battleships to small landing craft, World of Warships provides players with an unprecedented feeling of immersion into the naval battles of World War II. The historical details of World of Warships, the scale of the game, offers players the best possible navigation. Modes such as the Combined Arms Battle simulation, Threat levels, Fog of War, supply lines, and many more open up options in challenging by making the game more dynamic and exciting.

Navigation and Combat are Crucial to Victory

The scale of the battles and the diversity of the vessels are huge, allowing users to frequently fight with the same enemy navies, alongside the entire Pacific Ocean. Players can speed, maneuver, and submerge the boats and use them for supply, artillery, mortar, and torpedo operations. Further, users have access to air-to-air, water-to-air, and anti-ship missiles. The ships will shake and even collapse when attacked, highlighting the role of the officer and crew under pressure to handle each vessel in order to gain the

when i'm about to wait for the rp to start, the sound it plays is delayed. also when im joining, i cant hardly move, and occasionally the screen is black for a couple of seconds even though my PC has nothing going on i can only guess on the sound delay, i have no idea how to fix the black screen on the starting i game, and i cant figure out how to stop the delay on waiting for the rp to start hi chris, im sorry that the game is way too laggy for you,im pretty sure thats a problem with your gfx card, but its the only thing that would stop the game from lagging badly, if its any help, try running the game in compatibility mode, but that will slow down your computer, but it could help, but ive no idea if thats a good thing or not, try it, Game "Mr. Prepper" Gameplay: when i'm about to wait for the rp to start, the sound it plays is delayed. also when im joining, i cant hardly move, and occasionally the screen is black for a couple of seconds even though my PC has nothing going on i can only guess on the sound delay, i have no idea how to fix the black screen on the starting i game, and i cant figure out how to stop the delay on waiting for the rp to start Hi, I've been using the PC for about a year and a half, and I wouldn't know if I'm any good at video games, but every once and a while I will try to play a game. (I know.. sad isn't it?) When I play the game, the music will play a bit too late, usually about a second or two. When I open the actual game (the one on the game page) it does the same thing, so even though it plays on time when I play it, when I open the game it seems to be 1 or 2 second later. I also get a weird black screen, but not as bad as the black screen you described. So, is that what it is? Am I just doing something wrong? Help please? HELP ME PLEASE ... Thanks, -Chris Hi. Sorry to hear you're having performance issues with the game. The audio delay is a server-side

CJS-105 Airborne Acoustics' Sniper, Shrouded Grenade Launcher. Automati'es Recon Vehicle Banks I'm a murderer. That's what they call me, 'cause I answer to no one. Sure, I need money to feed myself, but I'll do anything for it. I'm not a mercenary like some guys, I'm a hired killer, a temporary defense contractor. Maybe I am a mercenary, I don't know. Anyhow, I'm here to provide security. I'm a CJS-105 Sniper Rifle. My job is to get close, find the enemy, and end the threat. I'm equipped with an M903 Tactical Sight and an FN PAS-12 Red Dot Sight. The Sniper Rifle is capable of hitting an enemy at more than 600 yards away. I can disable any vehicle on the battlefield. I'm also loaded with an M113 submachine gun with a special ammunition. Three built-in C02 tanks are included, along with the required fuel in drums. I also come with two camo maps. Armored Police Vehicles can't see me. Actually, every tank can't see me, even if I wear an enemy's clothes. Tank drivers have to insert a small piece of paper into their vision slit, some call it a towel or a glass of water, and read the legend to see if the vehicle is visible or not. I can also be added to a vehicle from the chassis. I can't be mounted on top of a vehicle, but I can hang from a hatch cover or from a turret swivel. I can't be equipped with a bazooka. It doesn't work with my ammo. I also have two rocket launchers mounted on my back. One launchers shoots smoke and rockets, the other one is electrically operated. I can't equip a loitering mine. It gets in the way in combat. I also have two retractable skis. I can deploy those with a handle. They're less useful in icy terrain, but very useful in any terrain except for water. But I also come equipped with a pair of motion-sensor devices. The motion sensors take the place of cameras, which are oftentimes blocked by snow, fog, or dust. My motion sensors are installed on my hat, telescopic visor, camouflage suit, rucksack, and C02 gas tanks. I have a radio. To make sure communication is clear, my radio
