**REPACK Elden Ring Crack + Activation Code SKiDROW CODEX [+ DLC]+  
Full Version X64**

Please be advised that due to the fact that we will be conducting beta test for the game that will take place between Jan. 15th to Feb. 15th, we do ask that participants remain in the discord server and participate in the testing phase for a period of ~30 days. After this period of time, we will ask that participants explore as much as possible with the game before deciding if they will continue participating in the Beta Testing phase. This kind of activity may subject you to potential threats from the outside during this beta period. You must be aware of this and always be cautious. We are conducting tests for some of the more interesting aspects of the game, including, but not limited to,

---

battle strategies, maps, UI, etc. If you are interested in the beta testing, please be sure to register in discord as shown below. The beta testing period will be divided into three phases, starting with the release of the Beta Testing servers on the 15th, and ending with the Beta Testing servers being closed on the 15th of February (It will be the 15th, on the Japanese server, which is 12/13/16 on the Western server). You must remain in the discord server during these phases (Please let us know of any issues you have with this, as it may change during this period) If you have any questions or issues, please contact the staff. We are currently keeping a close eye on the progress of their server. If everything goes well, we believe the game will be available for you to play on Feb. 15. We will be announcing the exact time this will happen in the Discord server. If the server is experiencing any issues, please let us know as soon as possible so we can figure out the cause. We are currently keeping a close eye on the progress of their server. If everything goes well, we believe the game will be available for you to play on Feb. 15.
