A "living breathing world" that adapts to your actions. Battle hundreds of monsters and creatures. A vast number of side quests and secrets. A large world to explore and many characters to interact with. The choice you make now will have consequences on the world in the future. An epic story based on real events in Roman history. Beautiful hand-drawn cel-shaded 2D graphics. Travel in style across the beautiful lands of Esturia. About the game, the Audio, and its backers: Battle for Esturia is a fan-funded Kickstarter project. We are gamers, developers, and artists who are going to make this game into a reality. We are a small development team led by a game designer with a background in high-end game development, who has over 12 years of experience developing games. We were inspired by games like Final Fantasy, Diablo, Etrian Odyssey, and other turn-based RPGs. We hope you enjoy playing Battle for Esturia as much as we've enjoyed making it. **DISCLAIMER:** The Battle for Esturia name and logo are trademarks or registered trademarks of Warrior Games. In fact, I can think of an Eastern Roman theme RPG that would fit perfectly. Brontus. A Warhammer Fantasy style role playing game in which the player takes on the role of a freedom fighter in a magical world. There is also the Dungeon Master's Guide, which would be useful in terms of reference. There is actually a YouTube video on the game. a href="..../com/facebook/fresco/animation/bitmap/package-summary.html">com.facebook.fresco.animation.bitmap

Gyrodisc Super League is a team sport game that combines dodgeball and Frisbee throwing, that is three on three. And it is based on the dodgeball mode of Windjammers II. For those who don't know how dodgeball is played then this is the new trailer I made to give you a taste of the game. We have the new item that makes you a perfect (A.K.A.Gyrodisc) gyroscopically designed weapon for throwing at the ball and it has a special move that lets you do this. We have some new helmets that let you change between standard gyro gear and the boosty gyro gear. We have some new abilities to make you play like a ninja! We have everything that makes Windjammers II fun in a shortened format. We have two gyro disks for your throwers. RPG Storm are back! Today our biggest update ever comes with a full visual overhaul for every texture in the game, as well as a new campaign! In addition to that, the game now has a new interface that makes it easier to choose your fights, the game now has even more options for customization and offers a dynamic difficulty slider so you can play the game how you like best. Oh and it looks really cool now! This is a larger than life indie game experience packed into a smaller, more compact shape. It's 3 weeks until the launch of Gyrodisc Super League and we are making sure that it's the best debut ever. You will be able to download a build we are preparing for the big day. This build should include all the features we promised and will be even faster and more fun than the previous builds. We all love it when the stupidest idea we have ever had fails spectacularly. While unsuccessful, it's a nice chunk of foreplay for the awesome things you're about to read. A group of indie game developers, including the developers of The Binding of Isaac: Rebirth, challenged themselves to remake the original, proprietary first-person shooter in just three months for a £30,000 prize. And now the indie game developers behind this "Borderlands fan game" have revealed their creation in its full glory. The result is Gangbang Blaster, a first-person shooter which takes inspiration from both Team Fortress 2 and Dark Souls. The Binding of Isaac: Rebirth got a sequel on May 9. And we were told it would be heading
