MAYuta diary helps you with: > Mobile diaries > Contact diaries > Task diaries > E-diary > Reminders > Calendar > Notes > Voice memos > For emails > Testimonials " I use this iPhone app for diary purpose. It's really user-friendly and I love it. I was using the iPad app on my computer but I can't find a way to export my diary to my computer. I don't like to use the browser on my iPad, because I feel that it's less secure. Do you know a way to export my diary from the iPad app to the computer? Gian-Luca Leeuw " As I always use diaries on my iPad, I'm usually looking for an app that can transfer all my diary entries from my iPad to my computer. That's why I tried to find a way to do that, but I didn't find one. What a pity, because I don't have the PC Journal Cracked Version app on my computer. I was looking for a way to do that, but I couldn't find one. So I decided to write to you, to tell you that I really need to have that program on my computer. Please, if you have the same problem, do not hesitate to contact me, so I can do it. " Josef Szejna " The application is very useful, because I have to write my diary entries in my phone. I always forget to take my notebook with me. Using the notebook, I always need to go back to my room, so I can find a pencil and write down my diary entries. Annika van Niekerk " Dear developers, there is a diary app for Windows 7 and Windows 8. I was looking for a diary 2edc1e01e8
