The FIFA community is in for a treat as Electronic Arts' Sports division today announced FIFA 22, a brand new FIFA game that comes out before the start of the new season. FIFA 22 offers fans the deepest, most authentic, and detailed gameplay experience ever delivered in the FIFA franchise. The game is available in December for PlayStation 4, Xbox One, and PC. Developed from the ground up for the next generation consoles, it is the most ambitious console FIFA yet.

The core gameplay features for FIFA 22, as seen in the reveal trailer, include: FIFA Ultimate Team - The most popular gaming mode from the FIFA series returns with amazing new gameplay and features. Players will also have new in-depth Customization options, with ability to change player attributes, kits, and equipment. Along with all new Game Modes ("The Journey," "League" and "Create a Player"), FIFA Ultimate Team will also bring back the all-time favorite FUT Draft Mode. This exciting new mode gives the community a chance to draft its very own dream team of players. - The most popular gaming mode from the FIFA series returns with amazing new gameplay and features. FIFA Soccer Skills – A new “Dynamic Player Model” powered by the new “HyperMotion Technology” allows players to feel a more realistic, physical sensation. The goalkeepers will have control over a wider field of view, as well as more powerful punches, saves, reflexes, and reactions. The all-new “Dynamic Shot” system gives players a chance to time

their shots, like a golf swing, by analyzing and replicating their technique. Players will also have new natural reactions and teamwork options in the new “Body Swerve,” “Catch-Up” and “Precision Pass” systems. – A new “Dynamic Player Model” powered by the new “HyperMotion Technology” allows players to feel a more realistic, physical sensation. Features Key:

- New Style of Play - You define the pace of the game, you decide what tactics to employ and how you want to compete. Adapt to your opponents, change the way you like the ball to be delivered and deny it. Get there. Go places you've only dreamed of.
- Skill Moves - Get closer to the ball with dribbling, shooting and passing. Expanded aials also make aerial moves even more effective. Earn Defending Bonus which can let you score headed through balls or win penalty shootouts.
- More Changes Up Front - New set of attacking mechanics gives you more control over the direction of your crosses. Hamsik is the master of right- and left-sided crosses while Firmino is your friendly Brazilian PM.
- More Auras - Enhanced gameplay helps you read the game better to make those killer passes, dives and counters.
- More Skill Moves - New multi-effort passes let you deliver your shot accurately, using the ball's momentum to shift it in the desired direction.

-
- New Offside System - Now you get to decide if your teammate is able to score by drawing the opposition's offside trap. Offside traps are delayed to create more space for the defense to recover.
 - Extra Challenges - Play the way you want to compete. In FIFA Ultimate Team you have the control to make the most of any challenge in-game.
 - New camera position and shot animations - New camera position gives you more options in how you deal with the ball, whether you're finding the right pass, hitting the sweet spot or curling the ball into the top corner.
 - New Goalkeeper animations - New goalie animations allow strikers to confidently serve and adapt to shots from all angles.
 - Progress your player's attributes - Make your player better, more accurate and faster. Nike Generation has never been so important, with more takers of kicks and header touch, and more accurate through balls.
 - More visual updates - Nike and EA have refreshed FIFA's game engine, introducing visual updates to the game that deliver more realistic images on pitch.
