i'm also into audio, from car audio to home audio to headphones. i'm a music lover, and an eye-opening moment for me was discovering just how much more there is to musical recordings when you listen using high-quality gear. it's an experience i try to pass along to others as often as possible. gps car navigation system, audio systems video and navigation products manufacturers.. pc with internet connection [running windows xp( service pack 2) or. the following 2 steps are required to update map data for the avn726e/avn76d. serial number makemusic finale 2010 eclipse navigation not working. was downloaded from navixtras.com in step 2 of the avn726e process. it's not a car cd player, it's a bluetooth car hifi and a map disc, if u take ur phone out of the car, it will stop playing bluetooth, also when u let it sit for a while, it'll stop playing the map disc as well, so u have to always keep it in the car, or u can use it in the car all the time. hello, i have an avn 726e which is to be updated but i would like to know what i will need to do to update it. i have been to avn and they said i would need a nav dvd disc. i have none to hand. i have been looking on ebay and can find nothing. is there any where that i can download a dvd and get the update done. my address is dhs1998@live.com.au and i am in western sydney. thankyou hi, my avn 726e does not show up on my cars nav system, it has the option to connect to the internet but it wont, when i do the avn update it shows the update screen for a few seconds then goes back to the main menu screen and has no map icons. i have been looking on ebay and can't find any disc. can someone please help, i have been looking for days now. thanks

## ECLIPSE AVN MAP Disc 2009 MDV-09D

i have a avn6000 which says check map disc after i disconnected the battery of my car for a few days, it was working perfectly before. i believe i need to get a mdv-09d disc to use as an installation disc yet i cant find where to download this from any torrents or the internet. i have tried a mdv-81d disc as i torrented it but it did not work. does anyone have this disc in australia sydney area i could borrow if this is the right disc or knows where i can download one perhaps a link thanks my email is daniyal2009hotmail.com thanks keep the maps up to date in your eclipse avn2454, avn5435, avn5500 or avn6600 in-dash navigation receiver with this 2009 update disc, you'll get 8.76 million points of interest, better city map coverage, and up-to-date map information for the 48 states and canada. warranty: 1 year. the problem i am having is that i have a new eclipse avn726e with a new 2009 avn disc and it was never programmed with any data. it was never programmed with any audio disc and i have a couple of garmin travel discs on it and it plays them fine but all the others do not. i would appreciate any help in figuring out how to program it with a disc and get it working again. i have a garmin gps-t1 that i use and it has all the updates for the new maps. however, when i start my eclipse avn, it does not recognize the maps. when i go to the option for my garmin, i have a screen that says "no garmin gps detected". i have a garmin gps t1. i downloaded the new maps and was able to program them into the gps t1. however, when i put the maps on my eclipse avn, the avn will not recognize the new maps. i think it is a software issue. i have tried to download the update maps for the avn but when i try to enter the menu option, i get an error message that the map disc is missing. this is a problem because i do not have a disc with me. i'm hoping someone can help me out. 5ec8ef588b
