business details: the wi-fi connect 22w is Epson's latest WiFi printer that connects directly to your mobile device or home network. In addition to printing, the wi-fi connect offers advanced features like password protection, remote maintenance through the mobile app, and the ability to connect to more than one printer using the mobile app. With the mobile app, you can check the remaining print toner and operate the printer remotely. business details: Epson iGen2 Micro is a digital sheetfed flatbed printer that is designed for multi-page, re-print-friendly documents. It offers a huge range of paper and document sizes, plus a toner cartridge that will last nearly one year with normal use. business details: iDjet sells a wide array of «laminated office document systems» at an affordable price. These systems are available in both traditional and digital laminate options, enabling you to make long-lasting paper products or easily convert existing paper documents into a laminated finish. (ex. email signatures, business cards, cards, letterheads, etc). If you want to share your document digitally, you can print it to a network-connected printing and copying device that supports network print sharing. Epson offers the premium Epson Perfection Inkjet I530 printers in inkjet, color, black-and-white, photo, and desktop models. You can get these printers with wireless wi-fi printing for under \$70. The I805 is designed to be used with Epson lines of laser printers, inkjet printers, copiers, and fax machines, and in many cases it will operate with a wide range of compatible models. Another key feature of the I805 is its ability to scan both sides of an envelope simultaneously, using the scan to scan job. It will also automatically reorient images to match the orientation of the page, without the need to manually change the orientation of the paper when placing it in the scanner.
