the punjab text book board (pbtb) was established in 1952 in lahore. the pbtb published school books, such as the intermediate and secondary school text book (isst) for classes i to xii and the intermediate and advanced school text book (iasst) for the intermediate and the senior secondary classes. the following is taken from a textbook published by the education division, ministry of education, government of sindh, karachi, in 1979. it is not the official curriculum in pakistan and the ministry of education has promised to replace it with an upgraded version by the year 2000. on december 7, 1947, the government of india announced the partition of the country into india and pakistan. in response, mohandas gandhi launched the non-violent civil disobedience movement, inspiring the muslims to support his cause. seeing the danger of civil war and hindu-muslim violence, the british government and the united nations decided to end the partition. however, they refused to give pakistan access to the indian ocean. pakistan declared war on india in november, 1965. the pakistani army overran several indian cities and killed and captured thousands of indian soldiers. the indian army was completely routed, and india surrendered unconditionally. the quran is described as the first book written by allah. it is stated that the prophet (peace be upon him) is the first person who recited the quran. the quran is the source of all rights and obligations of mankind. the first man, adam, was created from clay by the command of allah. he was told, "read!" (quran 4:2), and was given permission to eat from the garden of eden. the garden of eden was in the east. the quran, therefore, is a part of divine revelation. 5ec8ef588b
