What's New In MP3 Skype Recorder?

Call yourself and your friends on Skype for free! The number of Skype calls made everyday are skyrocketing. Skype has also been bought out by Microsoft and they're planning on bringing it to all platforms. Meanwhile, Skype users need to be able to record Skype calls and chat conversations so they can watch and review them later on. The Skype call recorder allows you to do just that! You can record and save your Skype calls to MP3 format files, so you can even listen to the recorded conversation and share them with others. You can even save the recordings to your PC and then play them on your MP3 player. Do you want to record Skype calls? Then this is the app you've been waiting for! Features:

- Record Skype Calls: Record Skype calls and chat with your friends and family.
- Chat and Call: Keep in touch with your friends and family by chatting with them on Skype or by making Skype calls.
- Notes and Highlights: Get a glimpse of what was said during a chat or Skype call with special notes and highlights that you can show to others.
- Grammar Proof: Never make grammatical errors again! Grammar checker that will check any text you type and make sure it's correct.
- Save to MP3 and IMG: Save Skype calls to MP3 files or to images so you can play them in your MP3 player or watch them on your TV.
- Chat History: Share chat logs and messages with friends and family.
- Chat Secret: Keep your conversations confidential.
- Chat Filter: Hide chats with spam bots and other suspicious contacts.
- Group Chat: Join a Skype group chat to share your location with others.
- Calendar View: See Skype calls in the calendar with dates and times on top of them.
- Call Pro: Record Skype calls with a timer or repeat call.

Keywords: skype, recorder, call, call, chat, message, mp3, sideloading

0 user(s) found this review helpful 77.0 11/24/2015 5.0 out of 5.0 I had heard about this app before and it was recommended to me by my friend and family. So I was glad I got this app. I like it a lot because it is not only Skype call recording but you can record any communication with you mobile phone. It can record phone calls, sms, WhatsApp, voice, video, and so much more. I also like its time limit. You can set up the time limit for each recording. I set the time limit for each recording as a hour. By the way, there is an official website for this app. Kudos to Skype team. But with some issues. I am using it since last week. And since the app is a new one. I got some glitches since then. But I can say

System Requirements For MP3 Skype Recorder:

* 256 MB RAM * 300 MB HDD * Minimum Windows Vista x86 * 7 GB free disk space * Intel Pentium II / AMD Athlon 64 Processor or better It seems to me you do not have Javascript enabled. I used wamp in the past and I found it to be useful for testing programs. I'd advise installing the following plugin. Thanks. MédiuM téléchargement et installé correctement? - MédiuM télécharg
